JUSTICE FOR DONTAY IVY

Shortly after midnight on April 2, 2015, three Albany police officers (Michael Mahany, Joshua Sears and Charles Skinkle) unconstitutionally stopped a member of our community for having a "suspicious" walk and one of his hands in his sleeve. He was questioned, detained, and ultimately tased to death. That community member's name was Dontay Ivy—a father, and former Albany High athlete and honor student, who graduated from Virginia State University. Dontay had a history of heart problems and was living with schizophrenia.

On Oct. 28th, 2015, after a sloppy 7 month investigation dragged out by an incompetent District Attorney's office, a grand jury chose not to levy any charges against the officers that killed Dontay. This has left members of Dontay's family and the community devastated. When Dontay was originally taken from us, over 300 people came out to protest his murder.

Join us as we demand justice for Dontay Ivy, and accountability of those responsible for his death.
